SIROIS TRANSPORT IS DOING BUSINESS WITH CIS GROUP TO MANAGE ITS TRANSPORTATION ACTIVITIES

Saint-Jérôme, Québec, September 28, 2011— After completing the narrow evaluation of the bidders' proposals, Sirois Transport selects the solutions of CIS Group to integrate all its business activities related to order entry, trip dispatching, ratemaking management and invoicing. By acquiring the Rapid Suite and Cargo module, Sirois Transport will benefit from the integration of all the functions of a transportation company at low cost. From now on Sirois Transport will be in a position to manage at lower cost the entry of its trip allocation, make accurate and consistent rates, set up an invoicing process that integrates both fuel tax and pay management, and maintain as well an effective allocation of resources. The Rapid Suite and Cargo package will enable Sirois Transport to increase its efficiency and productivity as well as those of its clients.

About CIS Group:

Founded in 1977, CIS Group is among the most important suppliers of business technology products and services in Canada. It provides a complete solution for the information technology needs of the retail trade, distribution, sales, people and road transportation industries, while also offering services in IT outsourcing and network system integration.
